WELCOME

At its grand opening in April 1928, the Piccadilly Theatre was one of the largest theatres to be built in London - as its souvenir brochure claimed, 'If all the bricks used in the building were laid in a straight line, they would stretch from London to Paris'. The opening production starred one of the most acclaimed actresses of the period, Miss Evelyn Laye.

In its early days, the Piccadilly operated as a cinema and made entertainment history when it premiered the very first talking picture to be shown in Britain, *The Singing Fool* with Al Jolson. He also opened the *Jazz Singer* in 1928 and appeared afterwards on-stage to sing Mammie. The Piccadilly has presented most forms of stage entertainment from "Who's Afraid of Virginia Woolf?" (with the original Broadway cast) to "A Night with Dame Edna." There have been a variety of Royal Shakespeare Company (RSC) productions including "Edward II" starring Ian McKellen. Henry Fonda also made his West End debut in the solo play "Clarence Darrow".

The 1990s witnessed an expansion in musicals, ballet and dance, notably the most successful commercial ballet season ever to play in the West End, with Adventures in Motion Pictures' "Swan Lake". The Piccadilly has been home to a season of plays directed by Sir Peter Hall, starring famous names such as Judi Dench, Michael Pennington, Julia MacKenzie and Eric Sykes. It has also hosted the smash-hit musical "Spend, Spend, Spend" starring the Olivier award-winning actress, Barbara Dickson, the sell-out run of "Shockheaded Peter", "Noises Off" starring Lynn Redgrave, "Ragtime", the transfer of the National Theatre's acclaimed production of "Jumpers", "Jailhouse Rock", "Guys and Dolls" and "Grease the Musical". Recent productions include "Ghost the Musical", "Viva Forever", "Dirty Dancing", "Jersey Boys", "Annie" and "Strictly Ballroom the Musical".

BLIND/ PARTIALLY SIGHTED

Audio Described Performances

The Piccadilly Theatre provide audio described performances for patrons who are blind or partially sighted and who would benefit from having a live commentary of what is happening on stage.

In audio described performances a headset is issued to audience members to enable them to listen to a live description of the action onstage alongside all the dialogue and/or songs within the show. Not all shows are audio described. Audio Described performances will have an audio described logo next to it in brochures and online. There is a full list of audio described performances on our ATG website, our box office staff and in-house access team will also be aware of when the audio described performances are and will be able to assist with requests.

When booking tickets please ensure that you specify whether you will require the use of the audio description during the performance and you will be allocated seats and headset accordingly.

Guide, hearing and other service dogs are welcome at the Piccadilly Theatre and can be catered for - both inside and outside the auditorium, depending on your preference. If you require the dog inside the auditorium, we advise you book an aisle seat for maximum comfort and ease. If you don't require your dog during the performance, our front of house team will look after him/her for you and provide water. Please inform the member of staff when booking that you are bringing your dog and they will be able to ensure that you are booked into the most appropriate and spacious seat for you.

Touch Tours

Whenever we provide an audio described performance we host a Touch Tour before the performance. This guided tour gives our patrons an opportunity to feel the props, costumes and some of the sets so as to better understand what is being described to them during the performance. The Touch Tour usually requires a separate (free) ticket so please make our booking staff know if you would like to take the tour at the time of booking.
